The contestant will tell the judge that they protest and the matter will be discussed at the judge's convenience. The decision of the judges will be final. If any member does contest a decision, they should process the complaint in letter form and mail to the CRRA office within four (4) working days of the last performance of the rodeo. If any member does contest a decision excessively during the rodeo, an automatic fine of one hundred (\$100.00) dollars will be levied at the discretion of the judge, unless contest is ruled, by the Cowboy Board of Directors, in favor of the member. 12. Judges will award re-rides at their own discretion. The rider will have the option to take the re-ride or the score received from the judges. The contestant shall not ask for a re-ride. Judge must announce a re-ride or re-run is in order to the rodeo secretary before the next contestant competes. This is mandatory. TIMED EVENTS

1. A stock contractor/producer shall furnish a minimum of ten (10) head of desirable animals for each timed event.
2. No timed event stock is to be drawn twice (in a go-round) until every animal in the draw has been drawn once. If judges award a re-run, the contestant who is awarded the re-run must compete on that animal before it is competed on a second time. All timed event cattle cannot have more than three (3) runs on them in a paid performance unless approved by the event director. Timed event cattle that are drawn and turned out are considered as a run on that animal.
3. No contestant may compete on the same head of stock twice at the same rodeo. Should the same head of stock be drawn, judges will draw another animal for the contestant, excluding team roping.
4. In timed events, time shall start when animal crosses the score line in front of the judge. Animal belongs to contestants when they call for livestock regardless of what happens.
5. If a gate is opened incorrectly, contestant must declare immediately and a re-run will then be given at the judge's discretion.
6. After barrier is stretched and animal is standing, the contestant will have forty-five (45) seconds to call for stock. After forty-five (45) seconds the judge may release the animal and contestant will receive a no time.
7. A thirty (30) second time limit will be in affect on all timed events. Time keeper will blow the whistle at the 30 second limit and contestant will retire from the arena.
8. Line judge shall be sure no one stands close enough to the barrier equipment to tamper with it. A judge failing to comply with these instructions will be declared ineligible to judge a CRRR rodeo.
9. If a flag judge mistakenly flags a contestant the time will stand.
10. In timed events when a barrier is used, penalties incurred during the original run will be added to the re-run. Contestant will get stock lap and tap. If there are no penalties, contestant will run over from behind the barrier. *(Lap & Tap-Starting the time when the line judge drops the flag if he chooses or when chute gate opens. If an animal escapes the arena after the animal has been roped, the contestant's rope will be placed on the animal while the animal is in the chute. If the contestant received a penalty, such as a*

broken barrier during the initial run, the penalty will be added to the total time.)

11. Times will be kept in tenths in all timed events except barrel racing which will be kept in thousandths, when automatic timers are used.
12. In all timed events, stock shall be drawn not less than one (1) hour or more than two (2) hours before each performance. A list shall be posted at least one (1) hour before each performance. All timed event cattle shall be run through, prior to the first performance of each rodeo. There shall be no closed drawing held. One (1) judge must be present for drawing of livestock, with rodeo secretary, at the rodeo arena. "All contestants entered in the timed events will be drawn a head of livestock, regardless, if they notify rodeo secretary they are unable to appear."
13. Performance positions and stock must be drawn "for performance only", slack will be drawn immediately following the performance. If a contestant runs out of position for any reason on the stock drawn for him and agrees to it, time will stand.
14. No timed event cattle will be used in calf scramble, steer undecorating, wild cow riding or any other extra activities.
15. Line judge will have a list of cattle, contestants and positions with him at all times, while working the line. *In calf roping and breakaway roping the judge can stand on the left or right hand side of the roping box. In the steer wrestling and team roping the judge can only stand on the left side.*
16. Line judge will drop a flag as soon as it's determined the barrier has been beaten or broken.
17. If an animal is injured in the process of contesting in the timed events, the contestant will not receive another head during that go-round.
18. Timed event cattle will not be loaded in the release chute more than three (3) minutes before the beginning of that event.
19. The amount cattle are hazed will be at the discretion of the judge and the event director, however hazing will remain consistent throughout the rodeo.
20. Any timed event animal cut from herd cannot be brought back to a CRRA rodeo.
21. It is suggested that the rodeo secretary use uniform size poker chips for all drawing of livestock.

BARRIERS

1. If flag or automatic barrier fails to work, contestant will not receive stock over. The contestant will receive time penalty free upon the decision of the judge that the barrier functioned properly.
2. If the barrier fouls the contestant, (barrier equipment is defined as: head rope and jerk line stretched in front of the horse), contestant must declare himself immediately in order to be given a re-run. If the barrier fouls the contestant and he goes ahead and tries his stock, no re-run will be awarded. It will be the decision of the line judge, if the barrier fouls the contestant or not. It will be at the discretion of the judge to determine if the contestant has declared in a timely manner.
3. Contestant must have a western hat on when going behind the barrier and it must remain on until after calling for livestock.
4. In any timed event, when a barrier is used, it must be an automatic barrier.
5. Barrier will not be considered broken unless the ring falls within eight (8) feet of the post. Line judge is the only person responsible for picking up the ring. If the ring is beyond eight (8) feet of the post, there will not be a ten (10) second penalty added to the run.
6. No metal may be used on the jerk line and neck rope extending beyond the front of the chute. Barrier and jerk line must be tied with string only. (No rubber bands).
7. Once the barrier length has been set, it cannot be changed until a complete go-round or the completion of entire rodeo.
8. Starting flag must be in the most visible place for time-keepers. It is recommended flags be placed on both the head rope and the jerk line.
9. If barrier equipment stops animal or turns animal back, decision of the line judge will determine if stock is to be re-run.
10. No re-runs will be given for hanging of a horn or horns in the chute.
11. Barrier and barrier equipment used in the tie-down and breakaway roping cannot be used in the steer wrestling or team roping.
12. If the contestant beats or breaks the barrier, a ten (10) second penalty shall be enforced. Beating the barrier is defined when the horse's feet cross over the barrier before it is pulled.

13. It shall be the judge's duty to see that all barriers are set and functioning properly before each performance of the rodeo and slack.
14. If a barrier is replaced or repaired in a performance, barrier must be replaced identical to first barrier. No re-run will be given for adjustment of jerk line that pulls in front of the horse.

TIE-DOWN ROPING

1. Contestant must catch the calf, dismount, go down the rope, throw the calf by hand, cross and tie any three (3) legs. At least one wrap must be around all three legs of the calf when tie is complete to be a legal tie. If the roper's hand is on the calf when the calf falls, the calf is considered thrown by hand. Rope must hold the calf until the roper gets a hand on the calf. If the calf is down when the roper reaches it, the calf must be stood up with three (3) legs dangling straight underneath and re-thrown. The tie must be finished with a half hitch or "hooley". The time stops when the roper signals for time and the field judge drops the flag.
2. Catch as catch can; any catch is legal. Untie men must stay back until after the field judge has passed on the tie.
3. Stock contractor/producer shall endeavor to keep an even set of calves. Judges (provided it meets with the approval of the calf roping director) shall retain the privilege of eliminating uneven calves when necessary.
4. Anytime there is not a fresh calf for every roper, all calves must be run through at least twice and tied down at least twice before drawing. If a fresh calf is added to the herd, he must be run through, roped from a horse and tied down at least twice before going into the draw.
5. If uneven calves are eliminated from a stock contractor/producer's herd, it must be done prior to the draw of the first performance. Numbers of all calves eliminated must be sent to the CRRA office within four (4) working days after the rodeo by the judge and/or calf roping director.
6. If a known tum-back calf turns back two (2) consecutive times, it shall be taken out of the draw before the next CRRA rodeo. The calf number must be sent to the CRRA office with four (4) working days after the rodeo by the judge and/or calf roping director.
7. Fresh calves cannot be added to an old herd.

8. Names of ropers and number of calves drawn shall be posted one (1) hour before each performance. Roper must be ready to rope when his turn comes or his stock will be turned out.
9. Any contestant tampering with calves will be disqualified at that particular rodeo. (NO CONTESTANTS ALLOWED IN THE PEN WITH STOCK).
10. Judges should consider calves being roped when setting the length of the barrier. EXAMPLE: If the calves are uneven, some fast, some slow, set the barrier shorter. This will even the pen up.
11. Barrier, box, chute or score line will not be changed after a rodeo has begun.
12. A stop watch will be used by the field judge. Calves must remain tied down with all (3) legs crossed and tied for six (6) seconds. Judge will not start this six (6) second period until roper has remounted his horse and given the calf complete slack. Field judge must watch the calf during this six (6) second period and stop his watch, if the calf kicks free. This time will be used to determine whether the calf was tied long enough to qualify. If rope comes off the calf and the contestant goes ahead and ties the calf, the six (6) second watch will start when the contestant takes his hand off the pigging string. If a roper retightens the rope after the judge has started the six (6) second watch, the judge may restart the watch or the contestant may be flagged out at the judge's discretion. It is not required but strongly recommended that a judge allow the roper to examine the time on the watch if a calf has kicked free before the six (6) seconds.
13. If the barrier equipment fouls the roper, roper must immediately declare himself. However, if the roper goes ahead and tries his stock, he will not be given the calf over. Barrier equipment is defined as head rope and jerk line in front of the horse. Judge's decision is final.
14. Stock contractor/producer or committee will furnish one (1) man to open all front gates for the entire rodeo.
15. Calf roping horse must leave the box before the roper can rope the calf.
16. If a judge mistakenly flags a contestant early, the time will stand and no re-run will be given. Regardless of recorded time.
17. No calves used in the official draw can be used in the calf scramble, ribbon roping or other activities during the CRRR rodeo. Stock contractor/producer will be fined if this should happen.

18. Calves should be ran through the chute at least one (1) time before the rodeo begins and will exit the arena in the same location that will be used during the performance. (EXCEPTION: A fresh calf is provided for each contestant).
19. Calf roping is to be run prior to barrel racing in the performance. It is mandatory to drag the arena before slack and after barrel racing in slack.

TIE-DOWN ROPING - DISQUALIFICATIONS

1. Two (2) loops will be permitted, if roper is carrying two (2) loops. Should he miss with both loops, he must retire from the arena and no time will be given. Roping the calf without releasing the loop from the hand is not permitted. Contestants must adjust the neck rope and reins in a manner that will prevent the horse from dragging the calf.
2. If the calf kicks free before the tie has been passed on by the field judge, the roper will receive no time.
3. No re-runs will be given due to the default or breaking of contestant's equipment. Borrowed equipment is accepted as contestant's own.
4. Contestant will be flagged out and fined for intentionally dragging a calf.
5. Roper must not touch the calf after signaling for time. Once the flagman turns and rides away, time will be given to the roper.
6. Tail man or pusher caught pulling barrier. (reference fine chart)
7. Roper taking slack out of the rope after riding forward for judge to start watch. (judge may choose to restart watch instead.)
8. Failure to have at least one wrap around all three legs when run is complete.

RE-RUNS TIE-DOWN ROPING

1. If the contestant is given the wrong calf (other than the one drawn for him), he will be given the correct calf and the time on the incorrect calf will be disregarded.
2. If the calf gets out of the arena, the flagman is to drop his flag, stopping the time and the roper will get that same calf back lap and tap. The roper is to start in the box with the time he had when the calf got out of the arena added to his time. If the rope was on the calf when it escaped from the arena, it must be on the calf for the re-run on the lap and tap. If the roper has broken the barrier prior

to the calf escaping from the arena, the penalty will be added to the final time.

STEER WRESTLING

1. In this event there will be one (1) steer wrestler, one (1) hazer and one (1) steer. Hazer and horse are furnished by the contestant. The contestant (steer wrestler or bulldogger) is the person that pays the entry fee and attempts to throw their steer faster than all others entered in this event. This person must abide by all rules of the CRRA.
2. The steer must be caught from horseback. If steer wrestler loses contact with the steer, no more than one (1) step can be made to regain contact. Only one jump can be made at the steer.
3. After catching the steer, contestant must bring the steer to a stop or change direction then twist the steer down by applying a hold to the head and/or horns.
4. If the steer is knocked down, tripped or thrown by putting horns into the ground, contestant must let the steer up and re-throw him. Steer will be considered down only when it is lying on its side with all four (4) legs clear from under him and with head straight. Steer wrestler must have hands on the steer when flagged.
5. The fairness of the catch and throw will be left to the judges. Judges decision will be final. Stepping in front of the steer and throwing him while still in a forward motion is an illegal fall. Contestant's feet must hit over the score line or he will be penalized ten (10) seconds.
6. Steer wrestling is to be run prior to the barrel racing in the performance. It is mandatory to drag the arena before slack and after barrel racing slack.
7. Hot-shotting of the steer will be at the discretion of the contestant.

All timed event cattle shall be run individually prior to the first performance of each rodeo and cattle that cannot clear the chute will be eliminated from the draw or tipped at that particular rodeo. Failure to comply with this rule will result in stock contractor/producer being subject to a fine.

- 2. Contestant will be disqualified, if he attempts in any way to alter barrier or tamper with the steer without proper authority.
- 3. Hazer must not hit the steer in the face before catch is made or render any assistance to the contestant while he is working with the steer. Failure to observe this rule will disqualify the contestant.

- a. If flag or automatic barrier fails to work, contestant will receive a free roll at judge's discretion, no rerun will be given.

4. Judges may be allowed to leave their position to assist in repositioning the barrels as long as they have clearly marked their position and return to the same exact location.
5. Barrels must be regulation size (55 gallon) and enclosed on both ends. No pads or tires may be used on or around barrels. Barrels must be at least two (2) colors. No solid colored barrels. Stock contractor/producers failure to comply will result in a fine. Barrels should remain the same for the entire contest.
